1. A jamming station is located between Vratislavice (50 44 N 15 06 E) and Nova Ruda (coords. unknown), east of Liberec (50 47 N 15 03 E). The station is a part of the Liberec radio station, which broadcasts one hour per day and devotes the remaining 23 hours of the day to jamming RFE transmissions. The jamming station is under the jurisdiction of Liberec post office personnel.
2. The jamming operations at Vratislavice are supported by two other jamming stations; one in Ostasov (051/G16) and one in Ruprechtice (50 47 N 15 05 E).
3. The Vratislavice jamming station is located in a fenced-in area which is guarded by Internal Police from the Decin (50 47 N 14 13 E) unit wearing blue caps. Signs posted around the area read "Attention, Restricted Area, Halt When Challenged" (Pozor Strezeny objekt na vyzvani zastavit). Inside the fenced-in area there are three poles. One is about 50 meters high and is painted red and white. The other two are about 30 meters high and are painted black. Between the poles is a watchtower, on top of which is a searchlight. The radio equipment is installed in a brick building, which is also located inside the area. Three men and two women were observed entering and leaving the building. One of them was recognized as an employee of the Liberec post office.
